For Sustainable Development

Charitable Society for Sustainable Development

- The Charitable Society for Sustainable Development operates in accordance with a publicity decision of the Ministry of Social Affairs and Labor No. 128 dated 01/21/2014 authorizing it to work in all the territories of the Syrian Arab Republic, and it is a non-profit organization.
- The association implements its programs and activities in Damascus and its countryside and some governorates.
- It addresses local communities and Syrian families, focusing on women, children, youth, and all marginalized and most vulnerable groups.

Charitable Society for Sustainable Development

- We work to achieve social justice and empower individuals by organizing specialized development and humanitarian programs that include building societal capacities and raising awareness in various aspects of life by adopting a sustainable, integrative, participatory development approach.
- The needs of Syrian families are also met as a result of their damaged conditions and suffering from displacement, housing change and economic inflation.
- In our association, we represent the values of credibility, transparency, respect, non-discrimination, equality and participation.

The organization's goals

- **Contribute to limited projects for poor parties in economically remote areas.**
- **Strengthening and developing sustainable development projects, whether in the creation of small development projects or workshops to develop skills in community and development work, with the aim of creating job opportunities for Syrian youth.**
- **Organizing awareness-raising seminars and courses, especially in the field of psychological, developmental and health work.**

The organization's goals

- Supporting and empowering women in all fields.
- Allocating a safe space for children to build their intellectual, physical and psychological capabilities.
- Establishing initiatives that seek to root young people in their lands and build cohesion and peace.
- Care and help the poor, needy and orphans.
- Work to rehabilitate and develop young people on the concept of volunteer work and devote the values of humanity.

Values

**In our association, we represent the values of credibility,
transparency, respect, nondiscrimination, equality and
participation**

Vision

Building a healthy society that seeks to create sustainable job opportunities and individuals who are able to solve their problems and build their societies.

Volunteer Team:

- **The volunteer team is one of the cornerstones for achieving the objectives and vision of the association.**
- **The team includes 47 volunteers with diverse skills and experience, which enhances the association's ability to provide effective and influential services in the community.**

Areas of work for the volunteer team:

➤ Distribution:

Volunteers organize and distribute humanitarian aid and food to families in need, ensuring that support reaches those in need as quickly as possible.

➤ Sign up:

Volunteers are responsible for registering beneficiary families and collecting the necessary data to ensure transparency and effectiveness in distributions.

➤ Interviews:

Volunteers interview families to determine their actual needs and provide appropriate support based on those needs.

➤ **Child-friendly spaces program:**

Volunteers implement programs aimed at providing safe and encouraging environments for children to play and learn, contributing to their social and psychological development.

➤ **Media Documentation:**

The team documents activities and events through photos and videos, which contributes to raising awareness about the association's work and helps attract more support.

➤ **Capacity Building Programs:**

Volunteers participate in the implementation of workshops and training courses aimed at enhancing the skills of individuals and society, which contributes to achieving self-sufficiency and sustainable development.

The importance of the volunteer team:

➤ Promoting community work:

The volunteer team contributes to building positive relationships with the community, which enhances the spirit of cooperation and solidarity.

➤ Increased effect:

Through joint efforts, the team can make a greater impact on the lives of beneficiary individuals and families.

➤ Skills Development:

Volunteering provides an opportunity for members to develop their personal and professional skills, enhancing their future abilities.

➤ Inspiring others:

Volunteers are role models in social work, encouraging others to engage in volunteering and contribute to the betterment of society.
